Notice of Force Majeure - Air and Ocean Freight Operations

Dear Esteemed Customers and Partners,

We trust this communication reaches you in good health and spirits.

In light of the continuing armed conflict and deteriorating geopolitical conditions across the Middle East region, circumstances that remain entirely outside our operational control, we are compelled to issue this formal Force Majeure Declaration effective immediately from the date of this notice.

Global Consolidators Pte Ltd operates exclusively in the capacity of a freight forwarder, acting as an agent on behalf of our customers. We do not function as a principal carrier except where specifically documented in a separate written agreement. This declaration encompasses all shipments handled via Air Freight and Ocean Freight modes.

Impact on Operations

Given the prevailing situation, customers should anticipate potential service interruptions and operational challenges, which may include but are not limited to:

- Severe congestion at seaports and airports
- Vessel schedule disruptions including blanked voyages, route diversions, and significant delays
- Aircraft flight cancellations, airspace closures, and emergency rerouting
- Substantially prolonged transit and delivery timelines
- Acute shortage of cargo space and equipment availability
- Stringent governmental directives, security protocols, and regulatory constraints
- Temporary suspension or limitation of terminal operations and cargo handling facilities

Cost Implications

We must inform you that all incremental expenses resulting from these force majeure circumstances will be invoiced to and recovered from the contracting party. These additional charges may encompass, without limitation:

- Storage fees at ports and airports
- Demurrage and container detention charges
- War risk premiums and emergency situation surcharges
- Congestion-related fees
- Costs associated with vessel or flight diversions and alternative routing
- Supplementary cargo handling and unforeseen operational expenditures

These actions are implemented to manage extraordinary circumstances beyond our reasonable sphere of influence while endeavoring to preserve service continuity to the maximum extent achievable.

Affected Geographic Areas

The countries listed below are experiencing direct impact from the ongoing hostilities, which consequently disrupts international supply chains, transportation networks, and logistics infrastructure globally—particularly due to critical maritime chokepoints such as the Strait of Hormuz and restricted airspace throughout the Gulf territories:

- Islamic Republic of Iran
- State of Israel
- United States of America
- Kingdom of Bahrain
- Kingdom of Saudi Arabia
- Republic of Iraq
- United Arab Emirates (UAE)
- State of Qatar
- State of Kuwait
- Hashemite Kingdom of Jordan
- Lebanese Republic
- Republic of Yemen

Recommendations

We strongly urge all customers and business associates to:

- Maintain active monitoring of shipment status through our tracking systems
- Build adequate buffer time into supply chain planning
- Prepare for potential delays and budget for additional cost exposure
- Maintain regular communication with our operations team for real-time updates

We greatly value your patience, understanding, and partnership during this extraordinarily challenging period. Our team remains fully committed to supporting your logistics requirements and minimizing disruption wherever operationally feasible.

For any queries, clarifications, or assistance, please reach out to our dedicated operations team without hesitation.

We thank you sincerely for your continued confidence and collaboration.

Yours Sincerely,

Buddhika
